

## APPENDIX D: SUMMARY OF RELATED STUDIES

The list below details previous and ongoing studies documentation reviewed for the Washington, D.C. to Richmond Southeast High Speed Rail (DC2RVA) project. Each report contained attachments or additional documentation including: mapping, engineering drawings, engineering analysis, track configuration/analysis, cost estimates, travel times, LOGISM/MONTE CARLO/RAILS simulations, station improvements, historic resources, environmental resources (wetlands, streams, etc), environmental documentation (Phase I, Phase II), public comment, signals improvements, crossing improvements, rail yard improvements, ridership projections/analysis, service planning/modeling, and rail operations modeling.
