1. Board Chair Update

Presented by: Jennifer Mitchell, Chair

Chair Mitchell provided the following updates:

- **Transforming Rail in Virginia:** Secretary Valentine testified on March 10 at the US House Rail Subcommittee regarding the \$3.7 billion Transforming Rail in Virginia program. The hearing and the Secretary's testimony centered on the economic and environmental benefits of rail investments in Virginia and across the nation. Specifically she reinforced Virginia's support for HR 2, the Moving Forward Act, and its new Passenger Rail Improvement, Modernization, and Expansion (PRIME) grants.
- **2021 General Assembly:** The Budget Conference Report provided one-time funding for the following DRPT rail programs in the 2021 Transportation Initiative:
 - \$83.5M: extend intercity passenger rail service between Roanoke-New River Valley and increase frequency of intercity passenger rail along the I-81/Route 29 corridor
 - \$83.5M: improve commuter rail service on the VRE Manassas Line
 - The Conference Report directs the Secretary of Transportation to conduct a cost assessment of extending passenger rail to Bristol and servicing a rail station in Bedford.
 - HB1893 and SB1212 introduced by Delegate Hurst and Senator Edwards to create a New River Valley Passenger Rail Station Authority have passed their respective houses and signed by respective house president and speaker. The bills is pending the Governor's signature.
- **VPRA:** The Transforming Rail in Virginia interim website is live and the full site is expected to debut in April.
- **Rail Industry Day:** DRPT and VRE held a joint Rail Industry Day on February 24 to inform the contracting community of the various upcoming procurements associated with the Transforming Rail in Virginia capital program. Approximately 350 people were in attendance.
- **Federal Stimulus, American Rescue Plan:** The newest round of federal stimulus in response to the pandemic has allocated \$1.7B total to Amtrak, with \$175M going to all state sponsored services. Official figures for Virginia are not yet available, but we expect to receive \$12M - \$13M.
- Amtrak is making the following service changes, made possible by the federal stimulus support:
 - **Long Distance Service Restoration:** Amtrak is fully restoring reduced Long Distance service to daily service between May 24 and June 7. The restoration includes all 12 routes that had day-of-week service reductions due to the pandemic. Long distance routes Crescent, Palmetto, Silver Meteor, and Silver Star which pass through Virginia are scheduled to be restored on June 7.
 - **Reinstate Furloughed Employees:** Amtrak will start the process of recalling approximately 1,250 furloughed employees later this month. Notifications to employees are expected to begin on or about March 15, with a goal of completing these notifications by March 29.

Amtrak Service:

- **Amtrak Northeast Regional Sale:** Amtrak is offering a \$19 flat rate sale on all NER trains to include Virginia sponsored trains.
 - Sale period: March 23 – March 26
 - Travel Period: March 30 – September 30
 - Accommodation: Coach and Business only - no Business or First Class
- **50% Capacity Restriction:** Amtrak is working on plans to lift capacity restriction on trains sometime this summer. Ridership demand and COVID infection rate will dictate termination of this capacity restriction. Amtrak is subject to federal law and masks will be required at stations and on trains until further federal guidance.
- **Virginia Sponsored Service Schedule:** All routes are back in operation except Washington D.C.-Richmond route, which still remains suspended due to COVID-19 impact. Richmond route stations are being served by Newport News and Norfolk route trains, as well as by long distance Amtrak service.

Amtrak Ridership:

- **Y-o-Y Ridership change for Virginia sponsored service:** Virginia sponsored service for the month of February 2021 was 31.1% of February 2020 ridership (down -68.9%).(see table below)

- **Systemwide** ridership is at 26.5%
- **Amtrak Recovery:** 7-day moving average for bookings continues to improve. Systemwide bookings are at 33.3% of the bookings for the same week last year. The percent of bookings for trips with travel dates that are relatively further in the future are increasing. This shift to bookings with longer days-to-departure promises continued growth in trips ahead.
