Alexandria Fourth Track Project

Alexandria Fourth Track Project Description

- Construct a new fourth track between the AF (Alexandria) and RO (Rosslyn) interlockings.
- Close coordination with adjacent projects at Crystal City, Alexandria Station, King St & Commonwealth Ave bridge replacements, and CC2DCA.
- Design and construction managed by VPRA's program partner, CSXT.
- Received \$45M Federal grant from USDOT in 2016 (administered by FRA).
- One of the first project segments to be advanced in the Transforming Rail in Virginia Program.
 - One of the Phase 1 Projects that will unlock new service, including 3rd Train to Newport News and VRE late night & weekend service.
