

Please join VPRA for a Public Meeting to learn about upcoming construction activities for the Long Bridge Project.

Visualization of the new Four Track Rail Bridge over Maiden Lane and Maine Avenue SW.

VPRA is hosting two public meetings to keep residents, businesses, and commuters in the Southwest DC Waterfront and Wharf area informed about the Long Bridge Project.

Learn about Upcoming Construction Activities:

- Traffic impacts on Maine Avenue and Maiden Lane
- Temporary lane closures and detours for drivers, bicyclists, and pedestrians
- Boating advisories
- Project timelines

VPRA is working closely with District and Federal agencies to minimize disruptions to the public and address community concerns.

What is the Long Bridge Project?

The Long Bridge Project will increase rail traffic capacity, create a four-track corridor, and construct approximately 1.8 miles of improvements, including five rail bridges and two bicycle/pedestrian bridges, over land and the Potomac River between Arlington, VA, and Washington, DC. Construction is currently underway and expected to finish in 2030.

Registration is recommended using the links below.
You may attend in person or virtually.
